Brian,

The only email that I have from you since our last correspondence on 7 June was the one you sent asking for a status update earlier this week. Have you sent others? I do not have any voicemails either. If you have asked several times and I don't have anything, that really concerns me. Both my spam and junk filters do not have anything in them either.

I am still gathering information and will be speaking with the general manager shortly. Are you out-of-country right now?

Brian,

I am extremely sorry for the delay in response. These coins were sent to press earlier this month and should have been completed by now. The last

conversation I had with production were that these were on track and I had received no delay notices for your project. The general manager is in the production room as I'm writing this email to find out why your order was not filled per the specifications of the dates listed and will be getting the completion date. I've not had this happen before and am extremely upset that you have not been taken care of as well as you should have been. I cannot begin to tell you how sorry I am. Your patience is so appreciated and I, for one, cannot say thank you enough for it.

We, the general manager and I, will be getting to the bottom of this in short order and will be in touch with you by Monday at the latest. I know that Gene left you a voicemail also explaining some of this.

Respectfully,

I have received your email requesting die ownership to be transferred from Northwest Territorial Mint to Petersen Products. I have found the die numbers for your coin and would be happy to process this request. The court has determined that NWTMINT retained ownership of all NWTMINT dies created to produce coins, medallions or other products for customers. The court has approved a fee for the ownership transfer in the amount of \$300.00 per die.

Your die numbers are,

comment: It was hard to figure out how to use the proof of ownership section. This file should contain my receipt (order 153877 -invoice 153877 customer ID 1033609) and other photo's & email to fill the proof box. Please send me an e-mail when you get this and I will forward those items if they did not turn out. I will be sending a letter to Denise Lentz asserting ownership of two Hammer clan dies.

I don't see how you could have missed me for claims if you have access to the NWTM files.

Version: 1.0

Please remember to add design and logo back to coin with your approval. Please let me know you prefer the line art or the point version. Also, the design for the coin is to be part of the coin. That's what you want, right? Or do you want the design to be black and the coin to be silver and the design to be silver and the coin to be silver? If you don't like it, then you won't need to buy a coin. The design is \$7.00 is the price of the coin.
